Re: Our File 582-797 USSR (Div.)  
PM 620

Dear Les:

We have received a further and final action in the above divisional application covering the apparatus aspects of the solid carbon dioxide case and enclose a photoprint copy of an English translation of the action.

You will note that the Committee has rendered a final decision and suggest that the only way of further contest will be by formal appeal. The response term is set to expire on February 10, 1981 and accordingly I would appreciate a telephone call from you in regard to what further prosecution if any should be had in this case.

Very truly yours,

  
George J. Brandt, Jr.
